Mailing Bags Details

Our Mailing Bags are our most popular range.

Co-extruded with 3 layers of polythene film, our bags are manufactured from 100% recycled material providing an extremely durable and robust bag to ensure your parcel reaches the buyer in top condition.

We guarantee we have unbeatable prices in the UK.

Material: Low-Density Polyethylene (LDPE)

Material Composition : 100% Recycle

Recommended Storage Temperature: 13-21°C (55.4°F – 69.8°F) for optimum performance.

Extremely **lightweight** allowing you to **minimise postal costs.**

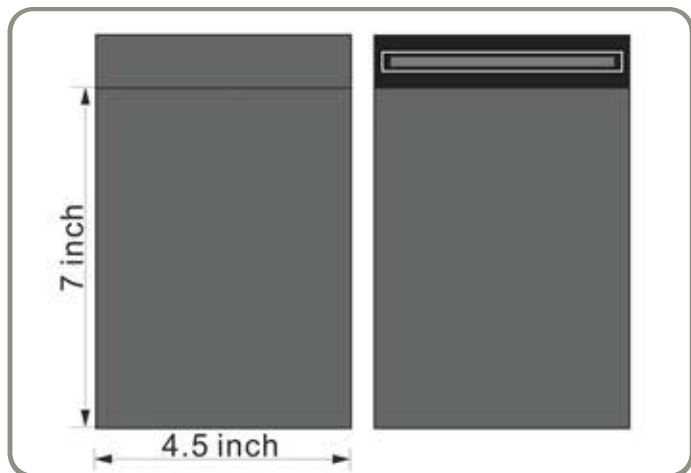

Produced using **co-extrusion technology** and manufactured from **50-60 microns thickness (220 -240 gauge)**. Compresses **3 layers of polythene film** into one making them very **robust, opaque and durable.**

100% moisture resistant.

Puncture and tear proof, making them able to **withstand rough handling**. All season glue. Once the self-adhesive strip is peeled, sealed and settled, the bag is **permanently closed and concealed**. **Tamper evident** and provides **high confidentiality** during transit.

CPP Display Bag

Material: CPP 100% Brand New Material

Ideal for packing items such as: garments, jewerly bags, gifts, electronics, DVD's and more.

We have a **variety of sizes** to cater to your packaging needs.

Extremely **lightweight**, helping you **minimise postal costs**.

Manufactured using **100% brand new material**.

30 Microns

Extremely **strong**, providing incredible **durability** to ensure a safe transit.

Waterproof and **burst proof**.

Contains a **self-adhesive strip**, once peeled and sealed it is very difficult to open.

Using Instruction:

Make sure you have the correct sized clear bag to put your goods in from our range of sizes.

Secondly, place the item intended to be shipped out to the buyer inside our clear cellophane bag.

Remove the self-adhesive strip.

Seal the adhesive strip onto the cellophane bag.

Place the sealed bag, into one of our mailing bag that fits your item.

Finally, place the shipping label onto the parcel.

Your parcel is now ready to be shipped out to the buyer!

Single Integrated Label

A single integrated sheet with one self-adhesive label on an A4 laser guaranteed, white 90gsm PEFC sheet.

The Integrated Label is our top seller to our line of integrated labels.

The large self-adhesive label is ideal for larger international addresses, fonts larger than normal sizes or users who need to incorporate customs declarations on their labels.

The label can be used with the label at the bottom or flipped so the label is at the top. Perfect for printing your picking note/customer invoice, it can help provide a smooth running dispatching process, saving you time and money.

Sellers using multi-channel management software like Linnworks can create their dispatch notes or invoices using these integrated courier labels.

Fast Pack with our label paper. Bright White 90gsm laser guaranteed paper FSC Paper Reduced toner usage paper Highest Quality

Plain Document Enclosed Wallet

Material Type: Polythene

Self adhesive polythene wallet to stick onto your package.

Transparent window allows identification of contents without the need to open the package.

Keeps delivery notes and invoice securely with the package.

Biodegradable Document Enclosed Wallets

Our Tenzalopes® clear biodegradable document enclosed wallets are an eco-friendly alternative to regular wallets. Made from oxo-biodegradable polythene, these wallets ensure your important documents are safely attached to consignments whilst boasting excellent eco-credentials.

The premium quality construction ensures protection from moisture and dirt and the strong peel and seal strip ensures secure attachment without the need for extra tape.

Tapes

Perfect for Securing boxes and parcels sent in the post or via courier.

Unlike other sellers' Tapes which are 66 metres in length, our tapes provide you more durability, as we are bringing you 91 Metres (100 Yards) in length.
Super sticky adhesive offering you the most security for your package
Apart from the extra length, we heavily focus on the three factors known in the adhesive industry as Quick Stick, Cohesion and Adhesion. These three factors impacts the quality and performance of the Tape.

Strong premium solvent tape with an aggressive grip. Low cost economy acrylic tape. They all have a glossy finish and are supplied shrink wrapped.
A completely transparent roll that gives packaging a tidy, professional appearance. Perfect for long term storage. In premium solvent or economy acrylic tape.
Compatible with most tape accessories such as tape gun, carton sealer, table dispensers that support 3 inch paper core.
Can provide that extra security if you are concerned about loose parcels or it being tampered with.
50 Microns Thickness.

Pallet Wrap

Our pallet/shrink wrap provides the highest confidentiality and security to protect your valuable products against pilferage and tampering.

The black shrink wrap is puncture resistant, has good adhesion and tack characteristics, providing great cling strength and pallet stability – a vital consideration for logistical operations.

Manufactured in the UK it is ideal for wrapping pallets or other parcels.

PiP Cardboard Box

Our new range of cardboard boxes, manufactured from single wall 125K&K E Flute corrugated board, the Pricing in Proportion (PiP) large letter boxes are designed to provide maximum protection for your products, whilst helping you save postal costs through the benefit of sending your parcels out as “large letter” and avoiding small parcel rates under Royal Mail’s PiP guideline. The boxes are quick and easy to assemble in addition to being lightweight and durable.

The boxes come with pre-defined creases that you can simply fold along, lock them into place using the tabs before securing it with tape.

Wine Air Pouch

Air pouch involves an inflatable air cushion, once inflated it provides a very effective cushioning for fragile goods. The air packaging, unlike bubble wrap, has a check valve to allow the bag to be inflated or deflated. It is one of the newer and in trend in-box solutions to protect fragile goods.

Air pouches can be produced in a variation of sizes that cater to different businesses needs which makes it a very ideal packaging solution.

Used for smaller items such as beer and wine bottles
 Or electronic such as PC/Laptops, mobile devices, iPads and tablets, TV/Monitors and also pharmaceutical items
 Air pouches can be customised to protect different items.

Benefits of Air Pouches

Air pouches provide an alternative to the traditional bubble wrap and other protectives to safe guard fragile items.

Creates a barrier that will help your products keep intact, free from dust and other forms of debris.

Customers will likely appreciate the cleanliness and simplicity that it offers with no messy foam of polystyrene to dispose of.

Stored in flat packets of 50 for easy storage in comparison to bulkier protective such bubble wrap or polystyrene.

Manufactured from the highest quality HDPE and co extruded with 8 layers of polythene film providing superior protection.

If one pillar of the air pouch is damaged, due to the advanced multi pillar design, this will not affect other inflated pillars
